

Maryland Medicaid electronic Provider Revalidation and Enrollment Portal (ePREP) Reminder and Resources

Federal rules require that Managed Care Organization (MCO) participating providers enroll with the MCO's state Medicaid agency (42 CFR Part 438, Subpart H). To continue rendering Medicaid reimbursable services, you must enroll with the Maryland Medical Assistance Program (Medicaid), even if your practice only provides services to HealthChoice participants. Enrolling with Medicaid does not mean that you must provide services to Fee-for-Service (FFS) participants.

As an existing University of Maryland Medical System Health Plans (UMMSHP) provider, you are required to enroll through ePREP. Additionally, UMMSHP no longer accepts credentialing applications without a Maryland Medicaid provider number.

Maryland Department of Health (MDH) has created a new self-service electronic Provider Revalidation and Enrollment Portal (ePREP). Providers must use the ePREP site for all provider enrollment and demographic changes.

For additional information and resources:

please visit <https://mmcp.health.maryland.gov/Pages/ePREP.aspx>,

go to <http://eprep.health.maryland.gov> for ePREP self-service,

or contact 1-844-4MD-PROV (844-463-7768).

Thank you.
